

Acrylic Counter Barrier

Product Parts

1. Barrier (x1)
2. Feet (x2)
3. Optional Graphic (x1-Top)(x1-Bottom)

Display Set-Up

Step 1

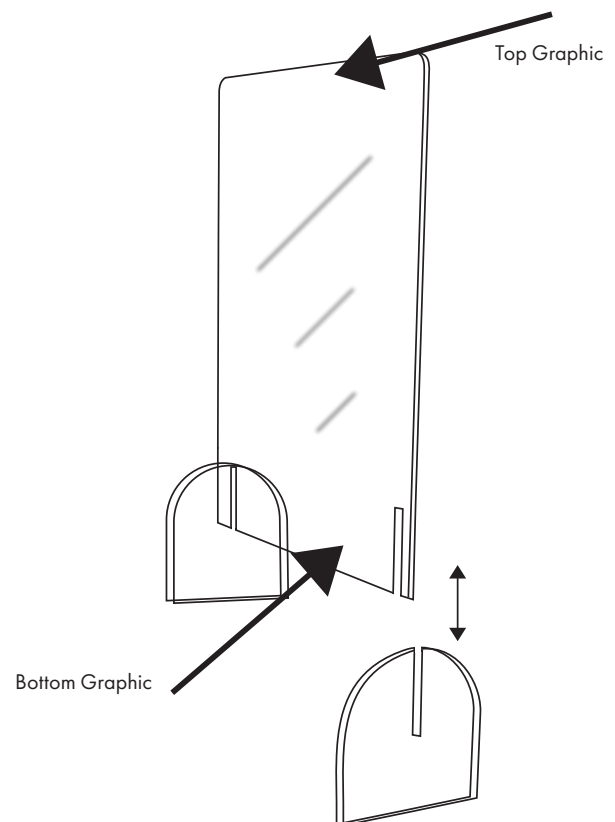

Remove protective film from barrier. Do this by peeling back from any corner. Dispose of protective film.

Step 2

If your display was ordered as a KIT (hardware + graphics), the Graphics (3) will come installed. IF you have ordered Graphics (3) after your purchase of hardware, adhere the graphic(s) to bottom and top of Barrier (1) centered between the sides.

Step 3

Attach Feet (2) to Barrier by aligning slots, pushing both Barrier (1) and foot together until each stops.

Storage & Care

To Store: Remove feet and store flat in a cool dry place.

To Clean Clear Barrier: Use soap and water, or hydrogen peroxide and isopropyl alcohol-based sanitizers. **DO NOT USE** cleaners or disinfectants containing **Ammonia, Bleach or Alcohol**. Cleaners or disinfectants containing **Ammonia, Bleach or Alcohol** will crack or fog the clear sheet.

Please go to Showdowndisplays.com to find this product and its list of approved cleaners.
