TUFFAK	Procter & Gamble	Clorox regular bleach 10%	Not Compatible
TUFFAK	Procter & Gamble	Clorox regular bleach 1%	Not Compatible
OPTIX	Generic	ethyl alcohol - pharmacy grade	Not Compatible

**SPECIAL NOTES:** Polycarbonate and acrylic products were tested on uncoated sheets. Do not use unapproved cleaners or disinfectants on sheet products. Generally speaking soap and water, hydrogen peroxide and isopropyl alcohol-based sanitizers work best as disinfectants on polycarbonate. Disinfectants containing hydroxides, dimethyl benzyl or ethyl ammonium chloride, ethylenediamines and hypochlorite will crack the polycarbonate sheets.

\*\*Because manufacturers sometimes change their formulas without notification compatibility in perpetuity can not be presumed.
