## additional information:

**To Remove Lamp:** Turn off/unplug fixture and allow to cool before replacing lamp. Bulb gets hot quickly. Do not touch hot bulb or shade. Unscrew two small finger screws that hold glass cover in place. Bulb is spring loaded on both ends. Simply push in one end and gently pull bulb out. Take care to use a soft cloth as oil from skin can damage the bulb.

**To Fit or Replace Lamp:** Take the bulb out of the box taking care not to touch the bulb with your bare fingers. Oil from skin can damage lamp. Use a soft cloth when grasping lamp. Open the fixture by unscrewing the two finger screws. Insert bulb into the fixture. Bulb is spring loaded on both ends. Push one end in and gently slide other end into place.
