

Green Graphics

Four great recycled fabrics combined with our select water based printing process

Xpressions™ Recycled

- 88% recycled content
- xpressions graphics
- surprisingly vivid color
- makes xpressions even greener!

Celtic Recycled

- 59% recycled content
- good color and opacity
- super strong
- the green alternative for general banner use

MicroKnit Recycled

- 55% recycled content
- flat graphic / no curls
- the green banner stand fabric option
- great retractable option

Paradise

- Collaboratively with eco•systems
- 100% recycled content
- from 100% post consumer products
- durable fabric with beautiful finish
- deep image saturation from water based inks

Plus... Greencore Substrate

- Collaboratively with eco•systems
- the green substrate alternative
- FSC (Forest Stewardship Council) certified wood
- printable biodegradable substrate
